

Parnassus – Informal Release Notes; v4.7.

- This document is an informal statement of the new features in minor versions of Parnassus.
- The document should be provided to customers on request, and should not be generally circulated.
- Formal release notes are written for major versions, after the version is released.
- Formal release notes are for general circulation to customers.

1 v4.7 Change log (release w/c 22/06/2015)

| TFS # | Description |
|-------|--|
| | New Feature/Improvement |
| 3058 | Automatically requesting certificates for cert due learners can now be set per qualification |
| 3058 | You can now specify if a qualification should allow the Use Best functionality for units. You can also control whether Use Best will be set by default when registering units. |
| 3108 | Audit Logging of Report Requests |
| 3115 | Add Phone Numbers to Registration Import File Process |
| 3116 | Added ability to prevent certain qualifications appearing on statutory reports (including PLR Upload) |
| 3078 | Registration Import File creation from file improvements |
| 2977 | Highlight there are notes when viewing entities (e.g edit learner screen) |
| 3032 | Show Only Current Centres on Centres Page |
| 3046 | Ability to create learners via registration import without the need to register on a qualification |
| 3056 | Qualifications XREP - added QualificationCode |
| 3058 | Added a new Request Full Certificates page to simplify checking the Request Full Certificate flag for Cert. Due Learners for a specified Qualification. |
| | Bug Fix |
| 3097 | Resolved performance issues with achievement Import file Item grid |
| 3098 | Fixed issue that would occasionally result in deadlocks when updating registrations |
| 3099 | Qualification List in Report Parameters did not contain 'All' option for Centre Users, this has now been added |
| 3100 | Fixed issue where contact roles were not defaulting to selected centre and site |
| 3103 | Fixed performance issue when listing qualification set registrations for a learner |
| 3114 | Fixed issue where Bath Data candidate report could potentially truncate the last line of the file |
| 3118 | Fixed issue where qual set offered not being deleted when removing Qual Set |
| 3123 | Fixed issue that was preventing the viewing of centre notes |
| 3125 | Fixed issue where certificate wizard crashed when attempting to select Learners where the only Learner available has an Certificate Generation Validation error |
| 3088 | Fixed issue where Parnassus crashed when adding new contact against a newly created site. It only worked if the site was closed and re-opened |
| 3092 | Fixed issue where notes control would not show all information |
| 3093 | Fixed issue where the Add Existing Contact Popup was not the correct size |
| | Fixed issue where the sites contact list was not updated after adding a new contact |
