Parnassus v4.8 release notes October 2016

New Feature/Improvement

TFS Number(s)	Title	Additional detail (where needed)
2665	Added Direct import mode for Grade import	
2836	Centre UI Sub Task - Only show live qualifications in registration import qualification dropdown	Registration import qualification dropdown now only shows qualifications that are available for registration, unless editing an existing row with a qualification already set
2996	Store photo and signature image to learner record	Added the ability to have a qualification require a learner to have a photo or signature against it, and for a photo image and signature image be uploaded and applied against the learner.
3015	Added last login date to user manager and made grid sortable	Added last login date to user manager and made grid sortable
3041	Transfers from non-standalone qualifications to standalone qualifications are now blocked (it used to bring across all the units)	
3079	Grade File Validation now includes checking for duplicate rows across all non-processed Grade Files	
3082	Achievement upload. Improve Error message for 'A suitable qualification registration cannot be found'	
3106	Change QCF to 'Credit Based' throughout Parnassus	
3121	Cannot delete Qualification Units after Advanced Rules have been added on a Standalone Qualification	Enables the deletion of Qualification Units after Advanced Rules have been added on a Standalone Qual by enabling the Advanced Rules button when the Qualification is marked as being Standalone
3130	Request Full Certificates not respecting result release date	
3180	Changes to Parnassus to meet the new Regulated Qualification Framework	Please refer to GA document 'CPCR 3180 - Parnassus and the RQF - TQT' for an explanation of the changes
3183	Our Reg and Cert end dates to allow a date later than reg and cert end date - when User is an Admin	
3192	Learner Names Proper Case	Added option to change imported learner names to proper case with ability to define exceptions - this is via a setting that GA will need to configure
3195	Improve grade calculation	Improved user experience when they are making changes to a unit that affects a lot of qualification registrations. Certification performance improvements, especially for registrations on pathways that have an achievement month limit.
3196	Alter Bath Data process to use Certificate Snapshot Grade	Bath Data process uses the Grade on the Certificate rather than the Qualification Registration if the Registration has a Certificate otherwise it shall use that of the Grade against the Qualification Registration
3202	Convert field labels QAN to QN and UAN to UN	
3205	Added minimum assessment age	A warning shall be shown on the existing Grade Import File Errors and Unit Assessment screens when the minimum Assessment age hasn't been achieved.
3209	Qualification Entry Requirements	allow Entry requiements to be specified against a qualification. Entry requirements are external to Parnassus – and may not even be qualifications (e.g. DBS criminal record check)
3212	Move edit qualification and edit unit fields around	Re-styled Edit Qualification and Edit Unit screens
3216	Learner NI Number	NI Number required tick box added to Qualification, Ni Number against learner, NI validation during registration upload process
3227	Exemptions for Prerequisites At Qualification Level	
3228	Exemptions for Prerequisites At Unit Level	
3323	Restrict Registration Direct Import Mode to certain sites	When Registration Direct import mode is enabled, show 'Prevent Direct Registration Import' tick box against Site
3342	Check for mandatory Purchase order on site when transferring a registration	
3367	Postcode Lookup for Addresses	Postcode lookup designed to work with Postcode Anywhere, but also Google
3373	Deleted Parnassus Learners and XAMS Link	New plugin for Odysseus on Qualification Registration deletion (only required for Coelrind/XAMS link)
3374	Add Modified User to Unit Registration Details screen	
3399	Certification Wizard ignores cert due registrations with a deleted assessment where the use best is in use	Ensures deleted Assessments are not included within the Certification Wizard process
3411	Certification - Show Centre code when you click on a certificate batch	Include Centre Code when viewing Certificate Batches
3414	Certificates - Learners names do not appear in the same order in print batch as they print out	Change so they appear in the same order

Bug fixes

TFS Number(s)	Title	Additional detail (where needed)
3107	Ensures that Qualifications and Qual sets are displayed after creating a new Site that inherits the Main sites Qualifications and/or Qual Sets	
3129	Add learner Registration through UI closes if press Return	Default button on edit registration popup now saves rather than cancels
3141	Fixed password recovery	
3172	Prevent Recalculate Grade occurring on Completed Registrations	Prevents grade Calc occurring on Completed Registrations apart from when returning/re-printing a Certificate
3204	Pressing "Enter" when editing a grade import file item closes the file item and the file and takes you back to the file list	Pressing "Enter" when editing an import file row will now save that row and leave the file open, rather than closing the file without saving.
3215	Invalid XML Characters in site name cause alternative achievement approval to throw an exception	XML Characters in the contents of the Alternative Achievement approval email caused an error.
3217	Event notes page doesn't allow you to view all the notes in the grid	Notes grid on event details page didn't allow scrolling to view all the notes that had been added - scrolling added
3218	Learner Gender - not showing asterisk	added * next to gender
3364	Cannot copy qualification where unit is in multiple groups	Allows the copying of a Qualification where the same Unit is in more than one Unit Group
3385	Cannot 'Add Existing Contact' to Centre	Fixed cannot 'Add Existing Contact' to Centre
3390	Allow use best on qualification can be set to false even when there are registrations already using best on the qualification	Disable Allow Use Best on 'Edit Qualification' when Registrations exist against the Qualification whose 'Use Prior' property is selected
3413	Transcript Certificates - Pop up window does not close automatically	Transcript Certificates - Pop up window now closes as expected
3415	Unit code is case sensitive	
3417	Unit Certificate Wizard when paging Learner Grid	Allows Unit Certificate Wizard to page on Learners Grid
3469	Edit Qualification Offered cascade checkbox incorrectly labelled	The option to cascade changes to a qualification offered to sibling sites was incorrectly labelled giving the impression it would only cascade changes if learner were not registered on the qualification. It will cascade changes even if learners are registered on the qualification. - removed 'with no registrations' from cascade text
