

## Parnassus v5.2 release notes (main features) November 2018

### New Feature/Improvement

TFS Number	Title	Additional Detail (where needed)
4142	Add Main Contact details to centre search results	Display the Centre Main Contact details in the Centre search results
4148	Add QiW QDC collection report	For those AO's in the QW pilot the QiW QDC collection report provides the ability to produce the Welsh Qualifications report Works in a similar way to the Ofqual QDC report but for QiW using the supplied QiW spreadsheet. QW have stated current anticipated live date for the report is April 2019.
4303	Workflow changes, including Forms.	- Link Workflow to more Entities - Workflows can be linked to centres, sites, learners, qualifications and units - Workflow tasks can now be assigned to Users at a Centre associated with the workflow - A 'form' designer has been added to the templates
4340	Workflow Publish, Versioning and Active concepts added.	- Workflow Code - Workflows have a unique auto generated code to identify them. - Workflow Version number- Workflows have a version number to identify versions of the same workflow, where a workflow is uniquely identified by it's code. - Versions - Workflows can have new versions. Workflow code remains same, workflow version number incremented. - Publish Workflow - Workflows are published when they are complete. Once a workflow template is published only limited text changes can be made to it. - Active Flag - Only 1 version of a workflow can be active. - Copy Workflow - Function to copy a workflow. New workflow code assigned.
4329	Add tabs to Registration Import File Import screen	The Registration Import file screen, used for editing the rows in the registration upload file, has been made more user friendly with the introduction of tabs to hold related data
4330	Event Screen changes	Event Screen changes to allow for more control with centre users and new fields
4386	Parnassus User Guide	A Help link icon has been added to the right hand corner of the top menu. When clicked it takes the user to the Parnassus documents page of the Parnassus Online website from where the Parnassus User guide can be downloaded
4342	Unit Outcomes	Unit outcomes added at unit level. These can be used to indicate aspects of the unit and/or what the learner should be capable of once they have achieved a non-Fail grade against the unit, and can appear on the certificate
4342-B	Centre Groups	Centres can be added to a Centre Group to group them together. Centres in groups can be viewed by a new X_REP Centre Groups report <i>NB before Centre groups list is visible on the Centre screen GA will need to create the required Centre Groups</i>
3958	Added; XREP Reports XREP_Venues XREP_CentreVenues.	
4385	XREP_Users	A new XREP to list Parnassus Users and their details.
4382	Learner Duplicate Checking with Direct Import Mode	Learner duplicate checking in Stage 1 of Registration file import now works for Centres irrespective of direct import mode setting.
Various	Service layer Improvements	Service layer extended in the Events area. Method added to allow an Event to be added which also adds Learner Registrations for the event.

Notes		
Workflow & Forms	<p>Workflow and Forms are included in the Parnassus core product.</p> <p>The menu option is switched off by default, as it is necessary to configure and set up workflows for each customer.</p> <p>If you are interested in using workflow functionality, please contact GA.</p>
